

General Computer Recommendations

Supported Operating Systems

- Microsoft Windows 10 – 32 and 64-bit
- Microsoft Windows 11
- Microsoft Windows Server 2016, 2019, 2022
 - Basic support for Terminal Services environment including Citrix
- macOS Big Sur (11.7.1) or higher
 - After upgrading to macOS Ventura you may need to reinstall Sabre Red 360. Please use the download link on the previous page or log a case with Sabre Technical support if you require assistance

***Sabre recommends Windows 10 64-bit and macOS Ventura (13.x)**

Hardware Specifications

- **Processor:**
 - Minimum:
Intel Core i3 Dual-core processor with 3.3 GHz (or AMD equivalent)
 - Recommended:
Intel Core i5 Dual-core processor with 3.2 GHz (or AMD equivalent)
 - Apple silicon (Apple-designed chip based on ARM architecture)
- **Memory:** 3.5 GB RAM for 32-bit OS or minimum 8 GB RAM for 64-bit OS
- 1.6 GB of **free disk space** for the first user on a standard desktop installation and 240 MB for each additional user
***Additional storage may be required for other agency applications**
- **Monitor:** 1366x768 is highly recommended. Monitors with lower resolution will work, but the user experience will be sub-optimal

Permissions and Rights

Sabre Red 360 will have the required access in Windows when installed to the **default** installation path.

If the installation path is changed, additional permissions may be required.

Network

Network and antivirus requirements can be found in the documents:

- Sabre Red Connectivity Guide for PROD
- Sabre Red Connectivity Guide for CERT
